Nationality: Syrian • DOB: 15 Oct 2000 • Transferable Iqama • Open to Relocation (KSA & GCC) • Immediate Joiner

PROFESSIONAL SUMMARY

Software Engineer with 2+ years of experience building and deploying full-stack web and mobile applications with TypeScript, Next.js, NestJS (Node.js), React, and Flutter on PostgreSQL, MySQL, and MongoDB. Delivered 4+ end-to-end products, including 3+ large-scale Hajj & Umrah platforms serving 500+ users, and automated billing through secure RESTful API integrations. AWS Certified Solutions Architect – Associate operating 5+ production applications on AWS, Docker, and Linux at 99.9% uptime. First-Class Honours graduate (GPA 4.97/5.00) writing clean, testable, maintainable code across the full SDLC in Agile, code-review-driven teams.

PROFESSIONAL EXPERIENCE

Software Engineer | Rasmi, Jeddah, Saudi Arabia

2026 – Present

- Designed and shipped 4+ end-to-end software solutions with Next.js, NestJS (Node.js/TypeScript), and React, owning delivery from requirements and system architecture through REST API, database, and UI implementation.
- Delivered 3+ large-scale Hajj & Umrah platforms serving 500+ users, digitizing operations and cutting processing times.
- Automated invoicing by integrating a billing system with external providers via secure RESTful APIs — authentication, webhooks, retries, and reconciliation — on PostgreSQL and MongoDB schemas designed for transaction-heavy workloads.
- Deployed and operated 5+ production applications on AWS (EC2, S3, RDS, VPC, IAM, CloudWatch) and Linux using Docker and Git, sustaining 99.9% uptime with monitoring, logging, and alerting.
- Integrated LLM APIs into product features — prompt design, structured output contracts, and evaluation against real cases.
- Built and launched 5+ WordPress websites, cutting average client launch time from 3 weeks to 5 days (76% faster).
- Collaborated with product, marketing, and operations teams on 10+ projects, accelerating release cycles by 25% through scoped incremental delivery and code reviews.

System & Network Integration Engineer | Madar Informatics, Jeddah, Saudi Arabia

2025

- Delivered 3+ enterprise network and security integration projects (Cisco, Ruijie) supporting 500+ connected devices across multi-site government and enterprise environments.
- Managed 500+ IP cameras on VMS platforms (Milestone XProtect, Pelco, Hikvision) with zero critical downtime in 24/7 environments — monitoring, incident triage, and root-cause analysis.
- Configured VLANs, firewalls, DHCP/DNS, and VPNs; administered Windows Server and Active Directory; delivered access-control integrations and as-built documentation.

Software Engineer Intern | Derwaza IT, Jeddah, Saudi Arabia

Jul – Aug 2023

- Built full-stack web features with the MERN stack (MongoDB, Express.js, React, Node.js); designed and tested RESTful APIs with Postman, earning the program Certificate of Completion.

PROJECTS

Meel Thaki — Last-Mile Delivery Platform | Graduation Project, University of Jeddah

2023

- Built a last-mile delivery optimization platform — Flutter driver app with turn-by-turn navigation, Node.js backend applying machine-learning route optimization over collected customer locations, and a WhatsApp bot delivering real-time status updates and ETAs to customers.

CERTIFICATIONS

- AWS Certified Solutions Architect – Associate & AWS Certified Cloud Practitioner — Amazon Web Services
- CCNA — Cisco Certified Network Associate — Cisco
- MCDE, MCIT, MCIE — Milestone Systems
- McKinsey Forward Program — McKinsey & Company

EDUCATION

Bachelor of Science in Software Engineering | University of Jeddah, Saudi Arabia

2019 – 2024

First-Class Honours — GPA 4.97 / 5.00

SKILLS

Programming Languages: TypeScript, JavaScript (ES6+), Python, Dart, SQL, HTML5, CSS3

Frameworks & Libraries: Next.js, NestJS, React, Node.js, Express.js, Flutter, WordPress

Databases: PostgreSQL, MySQL, MongoDB — schema design, migrations, query optimization

Cloud & DevOps: AWS (EC2, S3, RDS, VPC, IAM, CloudWatch), Docker, Linux, Git, CI/CD, Postman

Practices: RESTful API design, Agile/Scrum, SDLC, code review, debugging, performance optimization

AI & Tooling: LLM API integration, prompt engineering, AI-assisted development

Systems & Networking: Cisco, Ruijie, VLANs, firewalls, Windows Server, Active Directory, Milestone VMS

Soft Skills & Languages: Communication, Leadership, Teamwork, Adaptability • Arabic (Native), English (Fluent)
